

Question 67: Funding

- Funding for research for saturated soils and chlorides effects on soils
- Need regional centers/network to get the country involved
- It is critical to have industry people bringing their knowledge to universities.
 - University/industry partnership for permeable pavement courses
 - There is money out there for this
 - ABET loves this
- ICPI has funding
 - Many dollars spent in research and always looking for new ideas
 - Every proposal tends to be funded.
 - Pay for research project because more exposure.
- Look at stormwater systems.
 - Permeable pavement vs detention options.
- Hybrid Pervious vs ICP
- We need fact sheets
- Funding for permeable pavement course

Design

- Dave Heine – we need separate into two different audiences and tailor to audience
 - Decision maker
 - Design person
 - Synthesis of others who have put dollars on social and environmental impacts.
- Understand tools to evaluate
- Teach about what tools are available

Communications

- Get officials on board and need a guide to target elected officials
- Not just about 3 or 4 different technologies but impacts
- Courses/modules
 - Goal: Eventually, available for anyone to go onto the web and download. Needs to be narrated.
 - Online courses
 - Promotion and getting people to use it

Question 36: Hybrid Systems

- Not enough and need more research

Question 35: A good test, strength, etc ?

- No we do not.
- Many standard tests are available but consensus but do not meet design needs of permeable pavement systems.

Question 22: Basement/Shoulders:

- Not readily available but partially answered

Question 12: Info to engineers/contractors

- Industry best practices shared with universities and other training programs driven by industry.
- Challenges identified in training contractors to meet specifications in practice . Note: want contractors to teach contractors.

Question 30: Check Dams

- Yes and there are sources
- City of Seattle
- ASCE Permeable Pavement, but costs money
- ICPI Guidance
- Non-point source list server

John Harvey Question: Who else should we contact?

- AWRA, WEF, WERF , and?

Liv Question: Should we rename ourselves other than permeable pavements to capture the entire system?

- Missing entire part of storm water in naming
- The name permeable pavement does not get money
